

TCPI Exemplary Practice Performance Summary, August 2019

Paradise Pediatrics

Committed to walking alongside families and guiding them along a path of optimal health and wellness.

Paradise Pediatrics is located in the Northeast Valley of Maricopa County, Arizona. All professionals at Paradise Pediatrics maintain the highest levels of accreditation and pursue ongoing education to stay abreast of the latest trends in the medical field. One of our providers was even just recognized by Phoenix Magazine as one of 2019's top docs.

We provide accessible pediatric care, a child-friendly environment, and a responsive team of pediatricians. Paradise Pediatrics love kids, and our goal is to have a positive impact on the lives of children by providing exceptional health care and compassionate service to the families we serve.

At Paradise Pediatrics, we are open 7 days per week and offer a full range of pediatric care including prenatal visits for expecting parents, well-child check-ups, immunizations, and sick appointments. Our caring team is committed to providing quality service in a comfortable, safe office setting where children and parents can feel at ease.

Paradise Pediatrics sets aside time to equip parents with the tools and resources necessary for the development of healthy children from birth to adolescence. This includes having a link on our website to the American Academy of Pediatrics (AAP) Pediatric Patient Education Library, which is an organization of 67,000 primary care pediatricians, pediatric medical subspecialists, and pediatric surgical specialists dedicated to the health, safety, and well-being of all infants, children, adolescents, and young adults.

As part of that commitment, the AAP publishes expert advice for parents, caregivers, and patients on Pediatric Patient Education. Information can be accessed 24 hours a day, 7 days a week, and many titles also are available in Spanish.

Paradise Pediatrics joined the Practice Innovation Institute (Pii) in 2016 and graduated in February 2019 by completing the 5 Phases of Transformation and joining a qualified Alternative Payment Model (APM). As a result of their work, they have been certified to have meet Pii's definition of an Exemplary Practice.

A Pii Exemplary Practice is one that meets the following criteria:

- ✓ Practice has met Phase 3 and/or above
- ✓ Practice has implemented one of the six PFE metrics
- ✓ Practice is contributing positively in on one or more of the TCPI service delivery Aims.

With the effort of organizations such as Paradise Pediatrics, Pii was able to meet or exceed program commitments. As of the end of Q15 Pii achieved/exceeded established commitments for AIMS 2 – 5.
